Photography workshop in Trinidad

Intro to Photography

Learn how to take better pictures with Vincent's hands on learning style. Learn 3 key elements to improve your photography through changing your perspective, composition, and lighting. Youths learn discipline, problem solving skills and creativity in this workshop.

Intro to Video

Work with a team and create a 5-10min documentary, news or movie style video. Learn how to use a video camera, edit video and direct. Youths build confidence and team working skills in this workshop.

Intro to Graphic Design

Learn the fundamentals in photoshop and other graphic programs. Learn how to colour correct pictures, resize images and retouch images. Youths learn self-motivation, problem solving skills, and creativity in this workshop.

My name is Vincent T Joachim and I mentor the youth through the arts. The power of the arts is amazing. It is an excellent outlet for youths to put their positive energy in to. They learn new skills while building self-esteem and confidence.

I am available on contract to come to your school or community to teach photography, graphic design or video. I can teach from 1 day to three months. I have recently taught video at St. Augustine junior high in Calgary, River of Change Youth Camp in British Columbia and also taught photography in the country of Trinidad.
